- ✓ *Reporting and analysis*

vSERVE24/7 OFFERS SERVICES THAT REDUCE COSTS, ENHANCE FLEXIBILITY AND SERVICE DELIVERY FOR A SMARTER INFRASTRUCTURE

Different applications can be built using various types of cloud. Cloud computing aids organizations to increase the speed, agility and optimize service delivery for consumer and business needs. Cloud computing also helps business to trim down operational costs and offers a platform that balances to meet the customer needs effectively.

vServe24/7 takes a comprehensive analysis of different types of clouds and many applications that can be built using them. We provide server, storage, networking and software technology that is equipped to support cloud computing. Our service management helps the organizations to successfully manage their Cloud Infrastructure to deliver high quality services to consumers.

**CLIENT BENEFITS:**

- ✓ *Improved Management efficiency*
- ✓ *Lower maintenance cost*
- ✓ *Business continuity*
- ✓ *Improved service levels*
- ✓ *Reduce servers scale*
- ✓ *Increased resource utilization rate*
- ✓ *Scalability and extensibility for elastic cloud environments*
- ✓ *Intuitive visualization and reporting*
- ✓ *Minimize infrastructure risk*
- ✓ *Increased pace of innovation*

vServe24/7 Capabilities and Service Offerings:

Our service offerings help organizations to meet a range of operational challenges that include:

- **Cloud Infrastructure Services:** We offer consulting, prerequisites, site readiness check, infrastructure assessment and analysis and private cloud implementation.
 - ❖ Infrastructure virtualization
 - ❖ Network performance monitoring
 - ❖ Application availability monitoring
 - ❖ Uptime and performance of cloud
 - ❖ Cloud application monitoring
 - ❖ Reporting and analysis
 - ❖ Event management
- **Private Cloud Infrastructure:** A new approach of computing that is reliable and easily accessible and offers benefits such as:
 - ❖ Availability
 - ❖ Reduced costs
 - ❖ Flexibility to run workload and applications in the most efficient way
 - ❖ Minimize infrastructure risk
 - ❖ Reduced TCO
